

We have a unique and industry changing model to help you sell your business.

Our Group experience in Mergers and Acquisitions, Business brokerage, Corporate marketing, Sales management, new business development and event management across many sectors plus our Lead Team knowledge of the business broker landscape has led us to launch a new concept...a revolutionary way to sell.

A new way to help business owners to retire after a lifetime of sleepless nights and for us to lead them to keen buyers quickly with no fees to pay.

You do not pay an estate agent to post your house on a website so we don't charge to list with our buyer group...they pay for the privilege of taking over your business.

And we do not charge you a success fee for selling it once complete. **It is all free.**

Research tells us that the broker industry admits it only ever sells 1 in 20 of the businesses that pay huge listing fees in the hope of retirement...look at their own statement here.

WE ARE HERE TO SAVE THE 19 WHO PAID BUT DID NOT RETIRE.

According to UK Business Brokers, (<http://ukbusinessbrokers.com/>) brokerages, on average, sell only about 20% – a measly one fifth – of the businesses they take on.

Business brokers hate being compared to estate agents, but there is an indisputable similarity.
